### Survey Results

We received 1,230 responses to our survey.  
Here's how people responded!

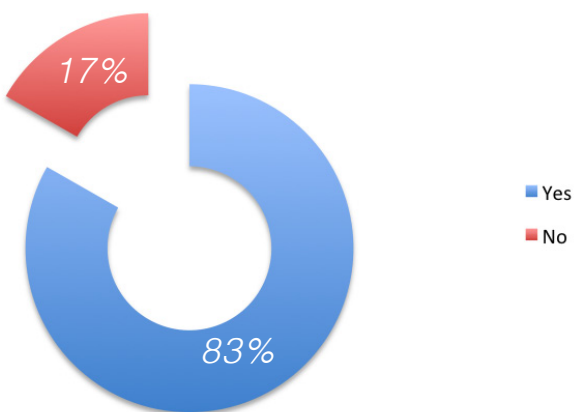

*Do you believe there will be a water shortage in central Indiana in the future?*

*Do you support the Mounds Lake Project?*

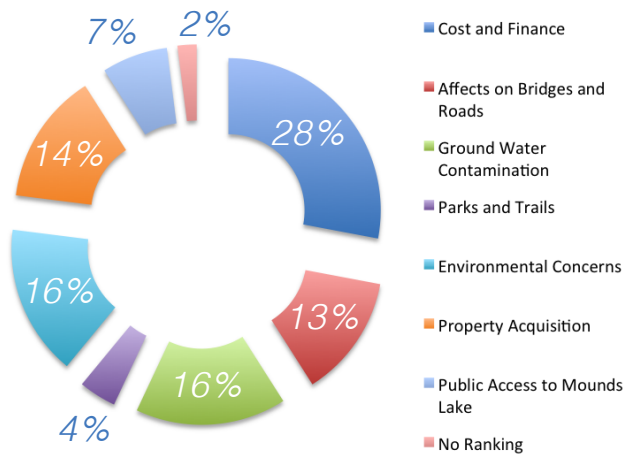

*Do you feel that information on Mounds Lake is easily accessible?*

**A few points to take away:**

- Approximately **72%** of responders are in support of the Mounds Lake project.
- Approximately **88%** of responders acknowledge that a need for water does or will exist in our region.
- Approximately **13%** of responders do not support the Mounds Lake project.

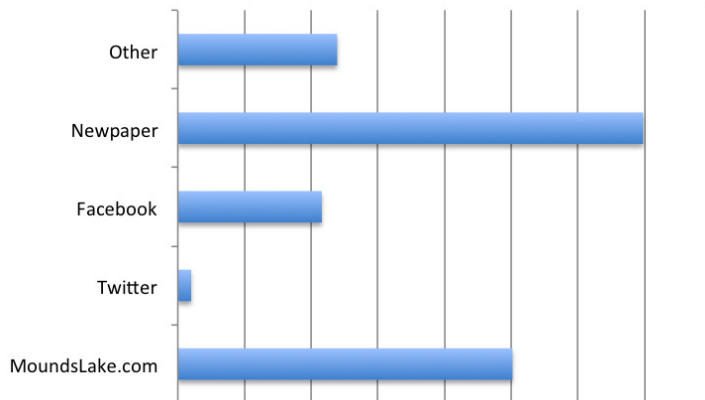

## Top Ranked Concerns

Of the 1,230 responders:

- 344 (28%) ranked *Cost and Finance* as their top concern
- 197 (16%) ranked *Ground Water Contamination* as their top concern
- 197 (16%) ranked *Environmental Concerns* as their top concern
- 172 (14%) ranked *Property Acquisition* as their top concern
- 160 (13%) ranked *Bridges and Roads* as their top concern
- 86 (7%) ranked *Public Access to Mounds Lake* as their top concern
- 49 (4%) ranked *Parks and Trails* as their top concern
- 25 (2%) did not choose a ranking.

## Where do you get information about Mounds Lake?

Of the 1,230 responders:

- 239 (19%) get their information from "Other" sources
- 698 (57%) get their information from the *Newspaper*
- 216 (18%) get their information from *Facebook*
- 20 (2%) get their information from *Twitter*
- 502 (41%) get their information from *MoundsLake.com*

## A few points to take away:

- More people are concerned about the cost of the project and the environmental impact/ground water contamination than any other issue.
- Over 50% of the responders get their information from the newspaper.

# Top Ranked Concerns - FAQ

## Cost and Finance

- Estimated cost of the proposed Mounds Lake project – \$400 million
- Funding sources being sought for the project include:
  - Private foundation monies,
  - Water utility revenue.

*NOTE: While many avenues of paying for this project are being explored, NONE involve local taxpayers.*

## Ground Water Contamination/Environmental Concerns

According to the Study performed by SESCO of Indianapolis, the following has been determined:

- There is no known contamination of any level coming from affected areas with the exception of the GM site.\*
- Sampling of the White River has shown no contamination from any of the affected area.
- Of the total site, focus has been narrowed to about 160 acres of commercial/industrial development within or near the proposed pool – about 80 acres of this is in the impacted area and would require additional examination from current or previous impact.

*\*More information will be forthcoming concerning the GM site and will be shared with the community as soon as it is received.*

## Property Acquisition

The Coporation for Economic Development for Anderson/Madison County (CED) is **NOT** acquiring property at this time.

When property acquisition is necessary, the CED will immediately notify the public and ensure the compassionate, responsible, ethical, and moral management of such transactions.
